**System Description:** The original and still the best solution for confined space, high angle or technical rescue, and traditional land-based applications, the Sked stretcher is a revolutionary design which provides outstanding patient protection and security.

The Sked comes equipped for horizontal hoisting by helicopter or vertical hoisting in caves or industrial confined spaces. When the patient is packaged the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough cordura backpack which is included with the system.

Available in International Orange, Green (GR) for military, SWAT and other tactical situations. Made in USA.

- Features:**
- SKED Stretcher
  - Cordura Back Pack/Towing Harness
  - Horizontal Lift Slings
  - Vertical Lift Sling (PMI E-Z Bend 3/8" rope)
  - Large steel locking carabiner
  - Tow Strap
  - Set of 4 removable webbing handles
  - Cobra Buckles
